## PERSONAL STATEMENT

I'm a 21 years old student at SWPS University of Social Sciences and Humanities in Wrocław (Poland). I love everything that has to do with research, technology, design and psychology. This is the reason why I am interested in user experience design.

I have 2 years of experience working as an educator in Strefa Psyche where I lead and organize interactive workshops for youth aged 15-19 in high schools. All workshops are based on applied psychology and help young people to understand their behavior and way of thinking.
